

Dottorato di Ricerca in Ricerca Biomedica Integrata 2018/19

Titolo: Circa diem: from molecular bases to implications of circadian rhythmicity of biological phenomena.

Docente responsabile: chiarella.sforza@unimi.it

Lingua: italiano

Descrizione: The course will illustrate the molecular mechanisms regulating circadian rhythmicity of living being and their effects on the organism. Circadian periodicity in cell morphology and functions will be discussed; examples of chronobiological analysis on humans in good health or pathologic conditions, and in relation to physical exercise will be illustrated.

Data: 4 giugno, ore 13.30-18.30

5 giugno, ore 13.30-18.30

Aule via Mangiagalli 31 – Milano
